

“Some of the world’s largest organizations entrust their accounting systems to us. We use WebLOAD because it is optimized for web testing, easy to use, and cost-effective.”

--Richard Hardaker, Technical Specialist, Benchmarking Team Leader, CODA Group International Ltd.

“RadView’s WebLOAD has saved us quite a few times.”

--David Bambrough, Quality Engineer, MorningStar Inc.

RadView Software Ltd.

Performance and Load Testing for Internet Applications

Our Expertise

Founded in 1993, RadView™ Software Ltd. is a leading provider of performance and load testing software. Our products are installed at over 2,000 customer sites worldwide, providing companies with highly efficient, robust solutions for testing the performance, scalability and reliability of their Internet applications.

Our Technology

WebLOAD Professional is RadView’s award winning software for performance and load testing of Internet applications. Designed to ensure the enterprise readiness of the most advanced internet applications, WebLOAD Professional simulates traffic for up to tens of thousands of users and provides detailed information on how your applications function under load.

In addition, WebLOAD is able to meet the load testing needs of specialized Rich Internet Application (RIA) environments such as Adobe Flex, Ajax and multimedia. WebLOAD Brings its full power to the specialized environment and provides full coverage during the authoring, execution and analysis phases of the test.

Our Commitment

By choosing an industry leader in performance and load testing of internet applications you gain access to an ecosystem of resources, knowledge and proven experience. Our commitment to our customers’ success is demonstrated through our dedicated, personalized, and proactive technical support that includes training and access to our worldwide network of certified partners and services.

With a consistent record of repeat business and multiple product orders, RadView remains the smart choice for the performance and load testing requirements of companies of all sizes. RadView is the software vendor of choice for leading organizations across the board including Best Western, Deutsche Bank, London Stock Exchange, Brown University, NASA, Adobe, Verizon Wireless and Airbus.
